ase 1: **Common Core dL—1 Week, 1 Day** (May be taken before or during resident cou

13 Feb – 25 May 07

Phase 2
Co Cmd/Staff Skills & Tactics and Multifunctional CSS
14 Weeks, 3 Days

ALMC

28 May – 29 Jun 07

Phase 3
Branch Technical
5 Weeks

Branch Schools

2-6 July 07

Phase 4
Nongraded Common Core/End of Course Admin
1 Week

ALMC

1 phase in ATRRS, but internally administered as 2.

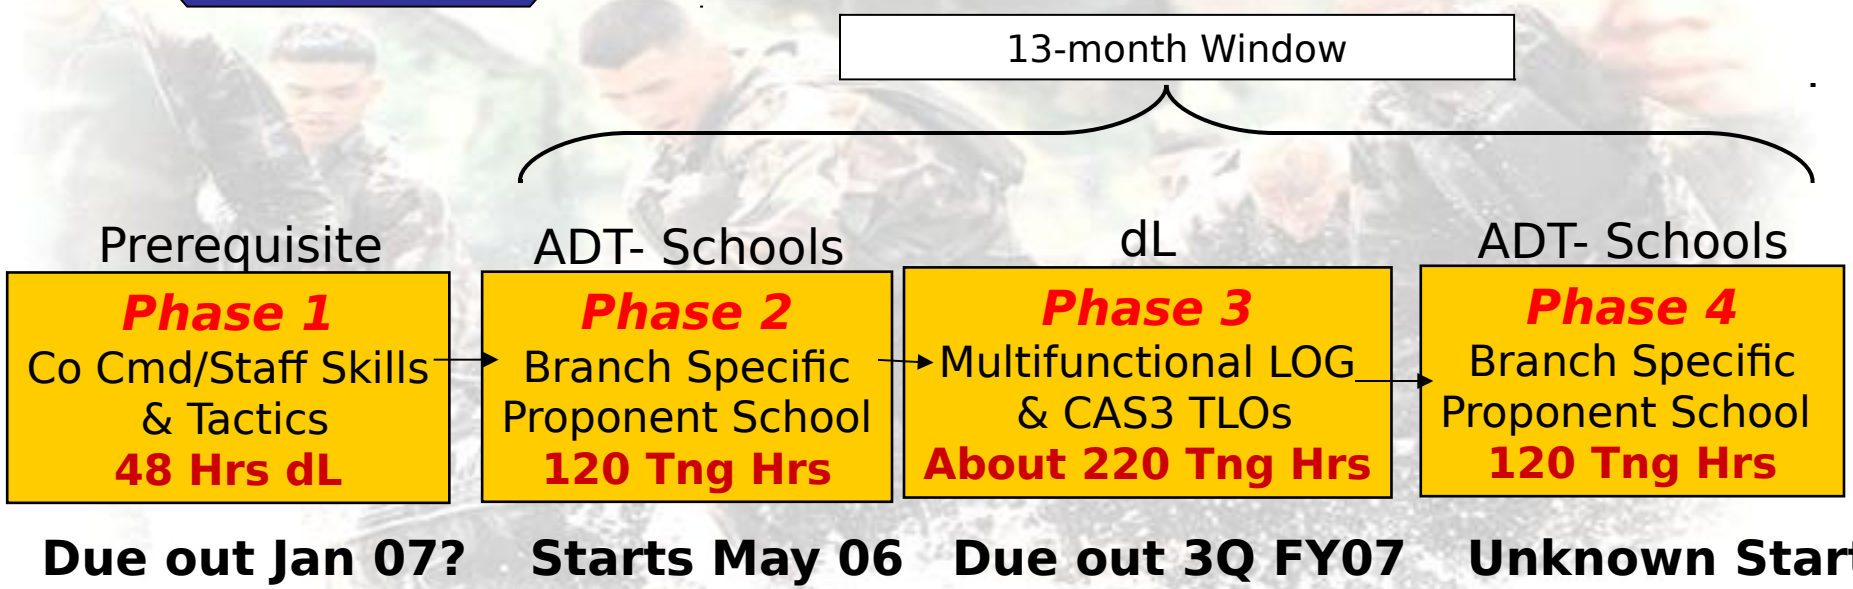
Staff Ride
SJA—LLW/UCMJ
AER counseling/safety
End of course admin
Graduation

Benefits of Re-sequencing CLC3

- Since all students will have the same baseline knowledge, branch technical phase can move directly into advanced functional concepts.
- Redundancies are eliminated by re-sequencing multifunctional log before branch phase.
- Proposal enables addition of agile leadership, cultural understanding, CL V storage procedures and more time for tactics with no course growth.
- Break in instruction between tactics/MDMP and CAX is eliminated.
- Combatives training will be complete before departing for branch schools (Level 1 qualified).
- TDY at branch schools is reduced by 1 week (dollar savings).

Future RC CSS Captains Career Course

CASCOM model still being worked



CLC3 Initiatives
(Recent/On-going/Future)

- Re-sequence multifunctional and branch technical training
- Revised course to incorporate Modular Force and TRADOC Common Teaching Scenario
- Added OIF/OEF lessons learned to all relevant blocks
- Added distribution management overview to Phase 2
- Added BCS3 and FBCB2 hands-on familiarization training in Phase 2 & 4
- Added hands-on PE for change of command inventory
- Incorporated technology into class (FBCB2, BCS3, Laptops for all students)
- Added a 3 day tactical logistical simulation exercise
- 4 day increase to course (CASCOM/TRADOC requirements) NET 06-002 new model (Oct 06)
